

## **I. Registration & Login**

Q: How do I sign up for the app?

A: First, you will see the Login page. Go to the "Register here" page and click it to get registered.

Q: What is the first step to register?

A: On the "Register - Step 1" page, enter your email address and click the "Send Verification Email" button.

Q: What happens after I enter my email for registration?

A: The system will send a verification link to your email.

Q: I didn't receive the verification email. What should I do?

A: Check your spam folder if you do not find the verification email in your inbox.

Q: What do I do after clicking the verification link in the email?

A: Clicking the verification link will take you to the "Complete Registration" page.

Q: What information do I need to provide on the "Complete Registration" page?

A: You need to enter your username, password, your class, your medium (English/Urdu), and a Groq API Key.

Q: I've completed registration. How do I log in?

A: You can log in by entering your registered email and password on the login page.

## **II. Groq API Key**

Q: How do I get a Groq API Key for registration?

A: On the "Complete Registration" page, click the "Get API Key" button.

Q: What happens when I click the "Get API Key" button?

A: A pop-up will show, allowing you to sign in with Google to get your Groq API key. Alternatively, you can manually go to <https://console.groq.com/keys>.

Q: I'm on the Groq console page. How do I create an API key?

A: After logging into the Groq console, you will see the API Keys dashboard. Click the "Create API

Key" button.

Q: What do I do after clicking "Create API Key" on the Groq dashboard?

A: A pop-up will open. Enter a display name for the key (any name, max 50 characters) and then click "Submit." This will generate the API key.

Q: I have generated the Groq API key. What's next?

A: Just copy the API key and paste it into the "Groq API Key" field on the iqbalai.com "Complete Registration" page, then click "Complete Registration."

Q: Is there a limit on the Groq API key usage?

A: Yes, the Groq API key you create is valid for only 1000 tokens for this AI chat.

Q: What should I do if I run out of Groq API key tokens?

A: To continue using the service, you will need to create a new Groq API key using a different Gmail account.

Q: Where can I manually create a Groq API key?

A: You can reach the Groq API key creation page at the URL: <https://console.groq.com/keys>

### **III. Using the AI Chat**

Q: What will I see after I log in?

A: After logging in, you can see your dashboard and an AI bot that can help you in your study to understand things you want to learn. It will be your virtual teacher.

Q: How do I start a new chat with the AI?

A: To start a chat, click on the "New Chat" button on the dashboard. The chat will then start.

Q: Can I ask questions using my voice?

A: Yes, you can use your microphone to ask questions in voice also.

Q: Can I save or share my chat conversations?

A: Yes, you can export your chat for further use or share it with friends. The export/share icon is shown next to your saved chat threads on the left panel.

## **IV. General/Troubleshooting**

Q: What is the website for this application?

A: The website is [www.iqbalai.com](http://www.iqbalai.com).

Q: What is the purpose of this app?

A: The app provides an AI bot that acts as a virtual teacher to help you in your studies and understand things you want to learn.

Q: The "Get API Key" button on the registration page opens a pop-up. What are my options there?

A: The pop-up allows you to "Continue with Google" to get your Groq API key. Alternatively, you can manually go to the URL <https://console.groq.com/keys> to create it.
